HISTORY

HK SILVER CHEM CO

founded in 1990 is a general group gradually developed and improved, Over the past thirty years, and has been continuously developed and expanded.

Established in 2003, Silver-Chem as a proficient International supplier and solution provider of chemical raw material and catalysts has around 18 years industrial experience of material technologies, engineering design, and technical support.

HK SILVER CHEM NETWORK

At the present 18 different companies from China, Germany, India, Middle East are in subsidiary network of Silver-Chem.

With Three Main office in:

China/Shandong

Germany

Middle-East

And several business associates in Turkey, South Korea, Russia, Italy, Germany, UAE.

We are able to supply all petrochemical, chemical & catalyst requirements in petrochemical, neft and gas industrials.

OUR BUSINESS

Silver-Chem, as a chemical trade, offer a full range of petrochemical products from the up stream production of olefins and the intermediate, purified terephthalic acid and methyl methacrylate to downstream production of four main plastic resins, polyethylene, polypropylene, polyvinyl chloride, and polystyrene, including fabricated products such as film, pipe & fittings, and acrylic sheet. To better serve customers' requirements, Chemicals Business, SilverChem assigns prime importance to the development of new technology and innovation for the creation of high value-added products and services.

At present, Chemicals Business, SilverChem is one of Middle-East's largest integrated petrochemical companies and a key industrial providers in the region.

Widely recognized for product quality as well as for excellent management and world-class operation efficiency, Chemicals Business, SilverChem has joint ventures with a number of the world's leading chemical companies.

BUSINESS PHILOSOPHY

SilverChem adheres strictly to the concept of fair practice to all parties concerned. The management committee and employees at all levels have continuously and faithfully upheld SilverChem 's four guiding principles in doing business.

Adherence

to Fairness

Dedication

to Excellence

Belief

in the Value of
the Individual

Concern

for Social
Responsibility

OUR VISION

HK Silver Chem Company, seeks to take a share of the global market, in line with the development of higher quality services and products in the supply of chemicals and raw materials for petrochemicals, refineries and factories. With the strongest relationships, we are ready to supply from anywhere in the world, and with the help of the most professional engineers of this company, we offer you the best choice at the best price.

OUR BUSINESS PRACTICE

SilverChem Company is the exclusive agent of many factories and can provide you with the best price along with the highest quality and the most appropriate method of delivery their products.

Also, we can supply the products you need from other suppliers and our business partners and international warehouses in different parts of the world, so don't worry about supplying the products either.

"Strategic Partner"

To increase each other's strengths and decrease each other's weaknesses by leveraging resources such as the market base, technologies, capital, and human resources possessed by each party

"Business Partner"

The most important thing for us is trust and credibility in the global market, so by choosing us you can have the best Business Partner

"Collaborative Partner"

To co-develop growth strategies that broaden business opportunities and support economic, social and environmental development to achieve steady and long-term growth.

OUR BUSINESS PARTNERS IN DIFFERENT PARTS OF THE WORLD

With our offices and professional people, we were able to gain a large share of the market in different regions. In addition, the best achievement for us has been the satisfaction of our customers with the quality of our products and business with our commitment.

We have offices in Germany, Turkey, Austria, India, United Arab Emirates, Pakistan, and our headquarters is located in China, which allowed us to have the best relationships with the world's largest factories and manufacturers.

SOME OF THE MOST **WIDELY** USED PRODUCTS IN THE **INDUSTRY**

Petrochemical & Refinery

- Antioxidant
- Calcium Stearate
- Zinc Stearate
- Peroxide
- Stablizer
- Flame Retardant
- Atmer
- Donor
- TAEL
- Adsorbent
- Sulfur Series
- Chloride Series
- Drying Series
- Naphta Cracking Series
- Titanium Dioxide
- TiCl₄
- Potassium Carbonate
- Acrylic Acid
- ...

Cosmetics & Detergent

- Steraric Acid
- Texapon N70
- Polyethylene Glycol
- Isothiazolinone
- Sulfuric Acid
- Mono Propylene Glycol
- Sodium Carbonate
- Isopropyl Alcohol
- Sulfonate Paste
- Borax
- Zeolite
- Hydrogen Peroxide
- Sodium Hydroxide
- Glycerin
- Polyethylene Glycol
- Vitamin E, A and B5,...
- EDTA
- Methylparaben
- ...

Construction Industry

- Pigment
- Bermocoll
- Titanium Dioxide
- HPMC
- Sodium Acetate
- Activated Carbons (AC)
- Vitamin C
- Calcium Chloride
- Calcium Nitrate
- Sodium Nitrate
- Epoxy Resin
- Polycarboxylate
- Acrylic Acid
- Hydrochloric Acid
- Polycarboxylate Ether
- Melamine Resin
- Naphthalene
- Calcium Hydroxide
- ...

Pharmaceutical

- Dicyclohexyl Amine
- Ethyl Trifluoroacetate
- Trifluoroacetic Acid
- Gamma Butyro Lactone
- Glutaric Anhydride
- Phenyl Alanine
- Methoxyacetic Acid
- Nitromethane
- Amino Phenol
- OTSA/OPTSA
- Chlorotoluene
- Succinic Acid
- Sulanilamide
- Thiophene
- Tartaric Acid
- Xanthan Gum
- Adenine
- Acetonitrile
- ...

Food Additive

- Acesulfame
- Aspartame
- BCAA
- Alanine
- Folic Acid
- Carnitine
- Mannitol
- Neotame
- Potassium Sorbate
- PVP K30
- Sodium Benzoic Acid
- Sodium Sacharin
- Sodium Starch Glycolate
- Stevioside
- Sucralose
- Vital Wheat Gluten
- Vitamin B2
- Xanthan Gum
- ...

ENVIRONMENTALLY FRIENDLY SILVERCHEM

We were able to supply the products of producers who love and respect the environment and nature by choosing the right factories all over the world.

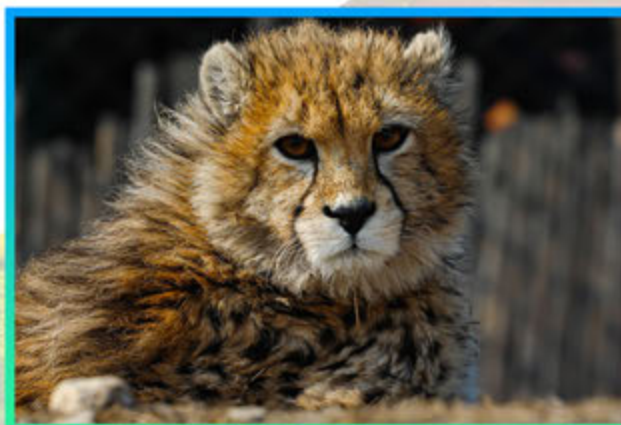

Because from our point of view, we should think about our children and always leave a clean land with enough resources for them.

The philosophy of celebrating Clean Earth Day is to protect the earth from pollution and clean it from pollutants, in fact, since the earth is always at risk with the advancement of new technologies and damages that will challenge the health of different communities in every part of the world in the future. will draw, naming such a day was essential for culture building. For the first time, the idea of naming this day around the world was put forward in 1969 by John McMonnell, the son of an independent religious missionary and interested in the field of religion, science and peace, at the UNESCO conference on the environment, and in the same year, he designed the Clean Earth flag.

Utant, the then Secretary General of the United Nations, welcomed McConnell's idea and this day became a world day in the calendars of the world.

In this way, the World Clean Earth Day is celebrated all over the world as a symbol of promoting the culture of protecting and maintaining the environment and the environment in which human life grows. It is a great opportunity to pay attention to this health-oriented and future oriented culture.

Every year we [celebrate](#) World Clean Earth Day at [Silverchem](#).
